

Moderator of the Curia

The Roman Catholic Archdiocese of Washington

Dear Monsignor/Father,

I write today with an update on an important notification from Mr. Michael Wilson, Executive Director of Information Technology (IT), concerning priest adw.org email accounts. Please note that in addition to the information shared below, IT also shares that it will now host **two** webinars for priests to walk through this process.

Multi-Factor Authentication for Email Accounts

To support additional functionality, the ADW Information Technology Department requests that each priest adds two or more methods for **Multi-Factor Authentication (MFA)** to their email account. The link below will open a video in your web browser and demonstrate the process of adding additional authentication methods to MFA.

After your account has been configured for multiple Multi-Factor Authentication (MFA) methods, the IT Department will set your account to allow you to use the **Microsoft Self-Service Password Reset (SSPR)** portal to change or reset your password. The link below will open a video in your web browser and demonstrate the SSPR process for resetting a forgotten password, or to change a known password.

Both videos can be stopped and rewound if you need to rewatch a section. Many video applications will also allow you to play a video either faster or slower. Please see below example:

Finally, here is a link to a one-page guide on MFA and SSPR documentation and additional training videos.
