

The Missionary Childhood association helps to educate children about their role in the Church's missionary work.

Children learn about other children living in some of the poorest regions of the world and are taught to pray the World Mission Rosary for those in the missions, especially their fellow children.

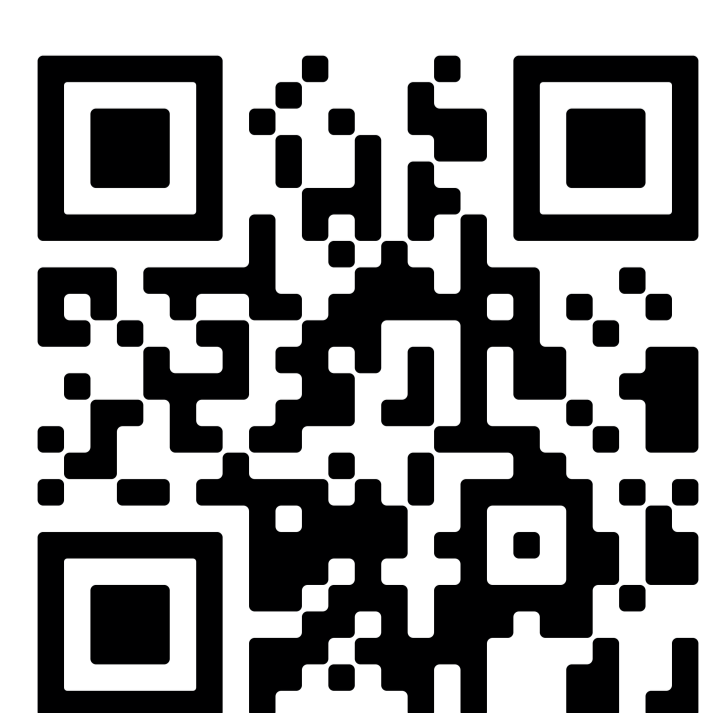

More than 2 million children each year are provided support in catechesis and Christian formation programs.

More than 26 million children attending primary school receive financial aid.

Over 1,100 territories worldwide receive support from the mites of children participating in MCA.
